

BAJA STUDIOS

THE STAGES

The stages are all insulated steel buildings with 24-foot wide roll-up doors, man doors and concrete floors. The roofs carry hanging loads of up to 300 pounds/lineal ft. Stages 2, 3 and 4 have perimeter catwalks and crosswalks for supporting various lighting grids.

Stage 2 The interior of Stage 2 measures 250' x 130' x 50' with 4 roll up doors. It contains a 100' x 200' x 29' deep tank. Height from the tank bottom to the light grid is 75'. Stage 2 is fitted with a hydraulic lifting system, which can be used wet or.

Stage 3 dimensions are 130' x 130' x 50' with two 24-foot roll-up doors plus 3 man doors.

Stage 4 dimensions are 130' x 130' x 50', with two 24' roll up doors plus 3 man doors. It contains a 100' x 100' x 4' deep tank with an overflow horizon. A 12' drive through door provides access into the tank area for dry shooting and set construction. Inside this tank is a deeper 30' x 35' x 12' deep insert tank.

Stage 5 dimensions are 100' x 200' x 30 –37' (split level) with two 24 foot roll up doors and 5 man doors.
